- f) The following decisions were taken with regard to the interpretation section:

Paragraph 5 was amended as follows:

As none of the species or higher taxa of FLORA included in Appendix I is annotated to the effect that its hybrids shall be treated in accordance with the provisions of Article III of the Convention, this means that artificially propagated hybrids produced from one or more of these species or taxa may be traded with a certificate of artificial propagation, and that seeds and pollen (including pollinia), cut flowers, seedling or tissue cultures obtained *in vitro* transported in sterile containers of these hybrids are not subject to the provisions of the Convention.

Paragraph 7 was amended as follows:

When a species is included in Appendix I, II or III, the whole, live or dead, animal or plant is always included. In addition, all parts and derivatives thereof are also included in the same Appendix unless, for animal species listed in Appendix III and plant species listed in Appendix II or III, the species is annotated with the symbol # followed by a number to indicate that only specific parts and derivatives are included. The symbol # followed by a number placed against the name of a species or higher taxon included in Appendix II or III refers to a footnote that indicates the parts or derivatives of animals or plants that are designated as 'specimens' subject to the provisions of the Convention in accordance with Article I, paragraph (b), subparagraph (ii) or (iii).

The following definitions in paragraph 8 were amended as follows:

Ten (10) kg per shipment

*For the term "10 kg per shipment", the 10 kg limit should be interpreted as referring to the weight of wood of each individual annotated species of genus Dalbergia or Guibourtia present in the items in the shipment. The 10 kg limit is to be assessed only against the individual weights of the portions of wood of each individual annotated species contained in each item of the shipment, and not against the total weight of the shipment. The total weights present of each individual annotated species are considered individually to determine whether a CITES permit or certificate is required for each individual annotated species, and weights of different individual annotated species are not added together for this purpose.*

Transformed wood

*Defined by Harmonized System code 44.09: Wood (including strips, friezes for parquet flooring, not assembled), continuously shaped (tongued, grooved, rebated, chamfered, V-jointed, beaded, moulded, rounded or the like) along any of its edges, ends or faces, whether or not planed, sanded or end-jointed.*

3. As a consequence of the adoption by the Conference of the Parties of a revised Annex to Resolution Conf. 12.11 (Rev. CoP18) on *Standard nomenclature*, containing taxonomic and nomenclature references for species included in the Appendices, some orthographic and name changes have been introduced in the revised version of Appendices I, II and III, in addition to those mentioned in paragraph 2 of this Notification.
4. In accordance with the provisions of Article XV, paragraph 1, sub-paragraph (c), of the Convention, the amendments adopted at the 19th meeting of the Conference of the Parties shall enter into force 90 days after that meeting, i.e. on 23 February 2023, for all Parties except those which make reservations in accordance with paragraph 3 of that Article.
5. In accordance with the provisions of Article XV, paragraph 3, of the Convention, and during the period of 90 days provided for by subparagraph (c) of paragraph 1 of that Article (i.e. by 23 February 2023), any Party may by notification in writing to the Depositary Government (the Government of the Swiss Confederation) make a reservation with respect to one or more amendments to the Appendices adopted at the 19th meeting of the Conference of the Parties. Until such reservation is withdrawn, the Party shall be treated as a State not party to the Convention with respect to trade in the species concerned. The other Parties shall then apply the provisions of Article X of the Convention to such trade with the Party having made the reservation.
6. In accordance with the provisions of Article XII, paragraph 2, subparagraph (f), of the Convention, the Secretariat will publish an updated version of Appendices I, II and III to take into account the amendments adopted at the 19th meeting of the Conference of the Parties and the changes necessitated by the adoption of standard references mentioned under paragraph 3 after the present Notification.
